## This year's prestige booklet puts pedal to metal

### Vintage Cars

This year's prestige booklet showcases the powerhouse years of the 1950s and 1960s when Danes seriously started buying cars. The booklet focuses on three cars distinctive of the period: the BMW Isetta 300, VW 12 De Luxe and Citroën DS21 Pallas.

### Four delightful sheets

The exclusive booklet with its glossy cover contains a total of four sheets of stamps - one of which even features a progressive proof where you can see the individual colours that make up the stamp. Comprising 32 pages of beautiful pictures and captivating text, the prestige booklet makes an ideal present. The booklet contains text in Danish and English, and comes enclosed in a protective black slip case.

bekvemme siddepladser og komfort som i en traditionel personbil. Ønskede man frisk luft, kunne man enten åbne sideruderne eller skyde foldetaget lidt tilbage, og ovenpå motoren var der plads til lidt håndbagage. Skulle man på en længere ferie, var det muligt at købe en lille bagagebærer med plads til en kuffert.

Med en længde på blot 228,5 cm kunne bilen i Tyskland parkeres med front imod fortovet. Det var dog ikke tilladt i Danmark, og var man rigtig uheldig, havde nogen parkeret så tæt på fronten, at man ikke kunne komme ind i bilen.

Den enkle konstruktion gjorde bilen så populær, at der de følgende syv år blev produceret flere end 36.000 eksemplarer på BMW's fabrik i Tyskland. Succesen med Isettaen skaffede ligefrem BMW det nødvendige finansielle overskud til at kunne udvikle nye bilmodeller. I dag er Isettaen en yndet veteranbil, ligesom den også er symbol på en interessant periode i bilhistorien. Modellen på frimærket er fremskillet i 1960.

## Minisheet featuring cars from when grandad was a boy

There is no shortage of nostalgia on the minisheet of cars from the time when grandad was a boy. All the drawings of the cars were made based on the genuine articles, which are on display at the Jysk Automobile Museum in Gjern, Denmark. If you take a good look at the car registration plates, you can see the year in which the vehicle in question was made.

# Summerhouses

**A popular type of holiday home offering time for relaxation**  
Around a quarter of a million Danes own summerhouses, and many more dream of buying one for themselves someday. The opportunity to enjoy delightful family get-togethers and relaxing days in harmony with nature has made the summerhouse a popular type of holiday home, because what could be better than lazing on the terrace and soaking up the sun? Even though the design, furnishing and size of the summerhouse has changed almost beyond recognition over the years, the purpose has remained the same: spending time close to nature, enjoying the fresh air and - above all - taking time to relax. The five stamps present examples of new and old summerhouses from Danish summerhouse areas.
